INVENTION DISCLOSURE FORM Confidential – Widget Corp.

1. BASIC INFORMATION

Invention Title: Adaptive Reading Light Glasses

Disclosure Date: November 25, 2025

2. INVENTOR INFORMATION

Inventor 1:

- Name: Thomas Marlow
- Department/Affiliation: R&D
- Email: tmarlow@blackhillsip.com
- Contribution to Invention: Inventor

3. INVENTION DESCRIPTION

Open or Start a New Session

Dec 1, 2025, 10:00 AM

- Provisional application immediately (protects concept)
- Prior art search during provisional period
- Prototype development over next 6-11 months
- Non-provisional filing at 11-month mark

TIME MANAGEMENT NOTES

Hard stops at:

- 30 minutes (end of optical discussion)
- 55 minutes (end of sensing systems)
- 70 minutes (end of power/physical design)
- 82 minutes (end of alternatives)
- 87 minutes (end of prior art)

Flexibility: If technical discussions run long, can reduce alternatives and prior art sections (follow-up via written responses)

Priority if time runs short: Focus on optical system and eye-tracking implementation - these are the core patentability elements

This condensed agenda focuses on gathering the minimum information needed to file a strong provisional application while
